

## **PUBLIC NOTICE**

### **Rebasing of the VFEX All Share Index**

The Victoria Falls Stock Exchange Limited (“VFEX”) wishes to inform stakeholders that the VFEX All Share Index will be rebased with effect from 01 January 2024.

The new All share index will be rebased to 100 points. We will continue to avail the old All Share index however it will not be published.

The rebasing has been necessitated by the migrations which occurred and there were some distortions on price levels hence the need to rebase. We believe that rebasing will allow the investing public to better judge the performance of the bourse.

The addition of additional counters on the bourse will not distort the performance of the index given the stability which we have been witnessing.
